

## ***International seminar with Dr. Korotkov & Martin Möhrke***

This international seminar is completely dedicated to the study of the energy fields of the human body and living or non-living matter.

There has been 25 years research done by Dr. Korotkov and his team of scientists and researchers to discover out the relations between the wisdom of the human energy field and the connections between the body, soul and the interaction with the surrounding environment.

The end results of this research of the physical and energetic body are evaluated and done under the supervision of Dr. Korotkov.

During this seminar u have the chance to get to know the newest and most important ideas for the future. With this knowledge there will be finally made a bridge between Western science and Eastern wisdom.

Special attention during the seminar will be about the newest science in Electro Photonic Imaging based on the Gas discharge Visualization Technique (EPC/GDV).

The GDV Camera developed by Dr. Korotkov is based on the Kirlian effect, which can be completely digitally recorded.

A new digital system for the simulation, registration and evaluation of Electro Photonic Images.

Those important findings can also be used by practitioners in regular as well in alternative medicine and coaches like in (top) sports. The method can also be used by scientists to get more information about living and non-living matter. It will give fast and accurate information about the energy field of the human body and/or matter.

With the GDV Camera you can get fast insights in the human energy field en measure what the effects will be of different kind of therapies.

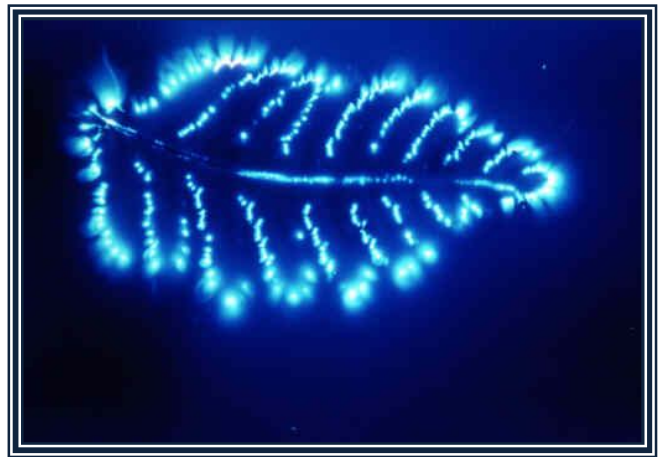

Dr. Korotkov receives a lot of credit all over the world and gets asked for all kind of Seminars worldwide to come to show his findings with his developments and research with the GDV Camera.

These days the GDV Camera is getting known and used all over the world and we are proud to have him as a speaker in the Netherlands.

***Date*** : ***16 april 2011***  
***Where*** : ***[Pim Jacobs Theatre Congrescentre Maarsse](#)***  
***Time*** : ***10.00 u - 17.00 u***  
***More info*** : ***[New Healthacademy.eu gdv seminar](#)***  
***Attend*** : ***[New Health Academy -Subscribe](#)***

## ***GDV training***

The New Health Academy (Netherlands) organizes the GDV Training to work with the GDV camera. This training is very useful for every practitioner or scientist who has interest in the evaluation of the human energy field and/or interest in research of living or non-living matter.

During the training the health status of the client and the effects of therapy, which has been applied for the individual patient will be shown. The best therapy may be chosen after GDV analysis.

The GDV Camera and software will be shown completely during the training and you will learn the different research possibilities. Also the different energies will be explained.

As well during the seminar as well on the training the proofs that energy fields exists will be shown. That those are measurable and how they can be used before during and after the chosen treatments or how to be used for investigating matter (living and non-living). The different software modules will also be explained.

***Training*** : ***GVD Camera***  
***Date*** : ***26 and 27 may 2011***  
***Location*** : ***[Kontakt der Kontinenten](#) at Soesterberg (Netherlands)***  
***Time*** : ***09.30 u - 17.00 u***  
***More info*** : ***[New Health Academy - GDV Camera level 1](#)***  
***Attend*** : ***[www.newhealthacademy.eu](http://www.newhealthacademy.eu) - attend***
