Heal the Hurricanes or Cyclones

Everybody with good intentions can do this meditation, and we have had several experiences now with cyclones, storms and hurricanes that are weakened, though forecasts said that they would not.

At the bottom of this text you can hear a short meditation comparable to this.

Find the silence within your heart. Call in Goddess-God, the Elementals, your master guides and ministering angels. Ask them to guide and assist you in this Light Work.

Pretend that you have the planet in front of you, the Earth has the size of an Soccer ball in your imagination.

Locate the hurricane. Compared to the Earth it has the size of a small walnut, so it is very easy to slow down, right?

Now imagine a powerball, a sphere of energy and light or a Holomatrix of Love, made from the Flower of Life pattern, encapsulating the hurricane. Take a deep breath and when you exhale you activate the powerball, the sphere of energy and light or the Holomatrix of Love, so that it rotates clockwise, the opposite way than the hurricane, which rotate counter clockwise.

Thought intention with breath:

Activate sphere of Light/ Holomatrix of Love (inhale)

Weaken this hurricane/ storm /cyclone (exhale)

In a few hours from now it will slow down so when it hits the country it will have lost its devastating power We don't need to do this meditation or visualisation at the same time. All is divinely timed.

What you send out, you shall receive

Here you can hear a short meditation/ activation so we can slow down the hurricanes, you can use it on all hurricanes.
