It is more important now than ever!

I have made a small healing activation you can give Mother Earth, it will help her to release the tensions so we can avoid the heavy Earthquakes and tsunamis.

I had great fun when I made it and I hope you will feel joy and happiness when you make it.

The science dont know waht to do, so let us give them a hand so to speak,

You can dowload this activation later, remember to log in or register.
