We have made The Abundance Experiment both as an Experiment and as a small free e-course in abundance.

We will ask for your help so we can create Abundance together. We can not create abundance for everyone by our self but together we can.

Torben has invented "The triple Breath" a method to code water, make structured / healing water, so you get a feeling of wellness from drinking your water. We all drink water every day, so it is very easy to improve our life at the same time just from drinking the water. It is so exciting, so every one should try it. No side effects what so ever.

Now you have an opportunity to spread the word of The Triple Breath and help a lot of people and at the same time earn money for yourself in an easy way, giving you a supplement for the household, a gift or to use for a seminar or to buy organic food! You can also donate the money for Tibet, it is all up to you.

Do you know someone who is sick, not feeling well, or simply someone that you wish good luck and inner peace to? When you wholeheartedly want someone to feel good, your actions are rewarded in subtle ways.

We have made a special Triple Breath for Abundance, and we want you to have abundance, not only financial but also abundance in friendships, loving acts, good possibilities, offers coming to you being just what you needed...

Share your Abundance experiences with us all: What happens when you offer the coded water to children or other beings like animals and plants? Or when you pour it in a lake? Have you used the water encoding in new ways? Maybe you have some ways to measure the effect? You can share it at the bottom of this page.

We would love to hear about it, and share the knowledge about the amazing qualities of water with the world. So many people suffer and need help, and this is one of the ways you can give a helping hand to others, even when they don't have much money. We keep our prices low so that everyone can afford to have this healing tool, both in Tennessee, Zimbabwe, India and Bangkok.

We want you to participate in this experiment in how this is working for you, how good luck shows up in your life, all you have to do is to write back how your experiences are and to help us promote our work for others.

Together we can create a Win-Win situation: We would like you to test the Special Triple Breath for Abundance, you get it for free when signing up, and if you feel for it you can use the banners in our Abundance system.

See how to sign up.

TORBEN'S STRUCTURED WATER

written by Lynae Wachter

Humanity has always sought the elixir of life, having an intuitive sense that water, the right special magical water, could produce miraculous changes in our physical bodies. Centuries were spent searching for the Fountain of Youth and other potions of alchemical nature. Alas, none was ever found, although psychics persisted in their certainty that water would easily hold a "charge" by placing an intention within it. By drinking this "charged" water, we could affect our health, our wealth, our relationships, our lives.

Today we have scientific proof from Dr Masaru Emoto's work that water molecules can be affected by human thought fields, changing their very structure in positive and negative ways. We know that a hexagonal water molecule is ideal for human consumption. We know that Dr. Emoto can imprint your own voice test results with scalar waves into a bottle of water just for you. We know that Dr. Emoto charges big bucks for all of his services.

We also know from the work of Dr Kye Ho Lee, that H₂O can be changed into H₂O.OH, which is the composition of water in our cells. If water is structured in this manner, it will readily carry nutrients through the cell walls and carry toxins out. We can purchase his dissolving crystals to make our own water solutions. Also for big bucks.

In addition to the hexagonal shape, water must have the correct pulsating vortexes of vibration and energy for it to provide perfect health to us. Dr David Wheeler offers to provide this component with his "M-Water Activation Technology™", patented and trademarked. Dr Wheeler sells his "Primordial M Water™" and his "Core M Water™" activated with his own equipment. His price list is extensive.

All are agreed that thought and intention changes water, and that water is energetic and vibrational and must conform to certain shapes to benefit us. In other words, water needs to be "structured" to cleanse and heal and hydrate our bodies.

Life grows in water. Every cell of our bodies seals in water behind a cell membrane and keeps, in this way, thousands of different bio-molecules which interact with each other in the water filled microenvironment. Water is the key to life, health and vitality. It is the medium behind every process in the body. It even forms the communications matrix which carries all brain signals and nerve impulses. Water contains prana, the universal life force, and transmits light between our cells, which equates to the true nature of God. Holy or healing waters uniquely found and studied in places like Lourdes, France are composed of beautiful hexagonal clusters containing hundreds of thousands of crystal water molecules which display the perfect geometry necessary for the reception and transmission of energy. H₂O (infinity symbol) refers to structured water. Water raised to the power of infinity has an infinite capacity to hold light frequencies to the very highest possible vibration. We are 90% water at birth and 70% water by death. We are Water Planet people and our vibrating water bodies represent every aspect of the Light of Divine source.

To carry energy through the cell walls, it is important to activate the water molecules in the body. Activated water molecules bring about a molecular transformation into clusters of water crystals. Clustered water crystals receive and transmit electromagnetic information at the DNA level every moment of our lives. This profoundly amazing vehicle

enables us to experience our highest potential. Adding your personal intentions, which are frequencies, to structured water and then drinking it, gives one a much higher divine vibration that enables healing and the raising of consciousness.

So what if you could get structured water for free? What if you could find a source of water that was so soft, so sweet, so vibrant and tingling that you could actually see and taste that it was Liquid Light? If intention changes water composition, as Dr Emoto has proven, wouldn't it be wonderful to find a base of water already changed by a master of high intent, a healer who is a beacon of light and unconditional love? And then add your own specific intentions for healing, or love, or money or whatever your soul desires. For free?

On the other side of the world, in Denmark, a man had a vision. Since the age of 12 he had an interest in serving people to do their best, leading him to work for many years in the healing arena, specifically in cleansing the mental, emotional and physical bodies. At the completion of the last level in his Melchizedek training, during his Light Body activation, he was given the information on how to make structured water. He made structured water thereafter for himself, his family and his clients, achieving healings for people in all areas whether physical pain, emotional disturbance or the easing of life events. After a while, Archangel Metatron appeared to him and asked if it wouldn't be a good idea to make an internet version using sound and intention to make structured water available to everyone? He was told exactly how to achieve this. He calls his technique the "Triple Breath". His name is Torben Munk Nielsen.

If you enter Torben's website <http://www.healingwateronline.com/>, you will change your life by making and drinking the water. Just set your glass or jug of water in front of your computer speakers and let the Triple Breath play. Be sure to taste the water first so that you can experience the startling change in both taste and texture after the Triple Breath. The longer the water sits as the Triple Breath repeats, the stronger the effect seems to be. The water will feel softer and smoother on your tongue and yet have a tingle. It may also be sweet or fruity or just plain clean tasting depending on if you have added your own intention to Torben's Peace, Unconditional Love and Harmony. Each person's experience will be unique and beneficial as attested by the following:

"Hello friends,

I want to express my love and appreciation for the gift of this magnificent healing water. I have been trying for many years now to heal myself, spending a tremendous amount of money in the process. While it all helped to a degree, none of it worked so well as to justify the continued time and expense. Then I met Torben and experienced his wonderful water, lovingly offered for free!

It is said that water is the most powerful of all elements, that over time it can dissolve literally anything. This is what I feel that this water is doing to manifest the healing I'm attempting to achieve. Torben's structured water is literally softening and enabling release of all that old "debris" that had previously been pushed deep into my emotional body and which had hardened over time, much like scar tissue. Finally something is working to free all that old energy I have been so desperate to shake off! I have been drinking the structured water for four months now and I absolutely notice the

difference in myself. I'm significantly less emotionally reactive to triggers which would have set me off before. I am completely able to retain my composure and I marvel to myself at how well I am doing!

I have much more energy, am sleeping better, and am now much better able to do what I need to do to take proper care of myself, and for that gift I will have much gratitude for always. And aside from all of that wonderful stuff, it is the freshest, most clean tasting water I have ever experienced! I now dislike anything else!

Much Love,

Carmel D.

Boston, USA"

And Cadi in the USA writes:

"Torben, I just drank some of your structured water for the first time today...and I noticed a big difference. I got a rush to my brain and felt like my aura greatly expanded. It was profound."

From Botswana:

"Dear Torben, I want to thank you for the healing that I requested from you a few days ago. My joints feel so much better and yes, I am using the Triple Blow and talking to my water daily. Once again, thank you so much.

With Love,

Heather."

Carsten H. in Denmark:

"I had pain in my left arm and fingers. I have had it for 10months and no doctors could help me. Torben said," What about a bottle of structured water?" I was thinking, "yeah man are you nuts!" but after one week I have to admit that the pain has gone away, so thank you Torben!"

Also from Denmark:

"Thank you for the structured water, my back pain is gone totally after one bottle of water. I could hardly walk and as a coach for a sports team it is important for me to be fit for the fight."

Dag M. Lindemann

My own experience in drinking the structured water daily has been like the proverbial Fountain of Youth. After 20 years of fibromyalgia pain, I am now almost totally pain free. The fibro fog has lifted and my thoughts are clear. I can concentrate, remember and multi-task. But beyond the physical, I am being flooded with opportunities for spiritual growth, new amazing friends, and tools for healing myself and others. On top of which, both my husband (also drinking the water) and I were called in the same week and offered perfect employment significantly increasing our incomeWill I continue to drink the water? You bet!

Love Lynae.

Ps you are welcome to share this information.

Abundant Thanks

Torben and Trine
